

What people really ask *the sky*.

Every question our members ask the Oracle, read back with every name removed, and filed into the house of the chart that answers it.

HOUSE 7 • KALATRA

48.7%

of every question is about marriage, spouse and partnership. The loudest house in the chart.

HOW TO READ IT

Each house is filled in proportion to the share of questions it receives.

55% ASK ABOUT LOVE	47% ASK "WHEN?"	72% WANT A VERDICT	6 CONTINENTS OF BIRTH	587,723 WORDS WRITTEN BACK
-----------------------	--------------------	-----------------------	--------------------------	-------------------------------

Twelve things the questions told us.

Every figure is a share of people, not of messages, unless it says otherwise. Each one is ready to post; the full copy-ready list is on the last page.

1 in 5

askers ask “When will I get married?” It is the most asked question.

55%

of askers ask about love or marriage. Love is the loudest house.

46.6%

ask a “when” question. Nearly half want a date.

72%

want a prediction. Only 2% want reassurance.

2×

Men ask about money twice as often as women (28% vs 13%).

6 pm

is the peak hour (India time). Tuesday, Mars’s day, is the busiest; Sunday the quietest.

30.6%

come with hope, and exactly 30.6% with distress. The scale sits level.

59%

of members are Gen Z. Median age 27. Born on 6 continents.

20.9%

of members are in Sade Sati today. Rahu is the most common Mahadasha running.

Indu Lagna

the classical wealth point, is the most-opened report.

2 in 5

first drafts are sent back by the checker. What can’t be fixed is never shown.

587,723

words written back. That is War and Peace.

BY LIFE AREA · SHARE OF DATED PREDICTIONS

2 in 5 first drafts get sent back.

Before you read a word, a second system compares every claim with your actual chart. What fails is rewritten once. What still fails is never shown, and you are not charged.

01

You ask

In your own words, about anything in your life.

02

Your chart is cast

Sidereal, Lahiri ayanamsa, whole-sign houses and the divisional charts.

03

Your dasha is proved

Every Mahadasha is recomputed and matched to within two minutes. No match, no answer.

04

Evidence is gathered

Houses, lords, Ashtakavarga, Shadbala, transits and vargas for your question.

05

The Oracle drafts

Verdict first, then the proof, then plain English.

06

The checker reads it

Every house, sign, lord, score and date is compared with your chart.

07

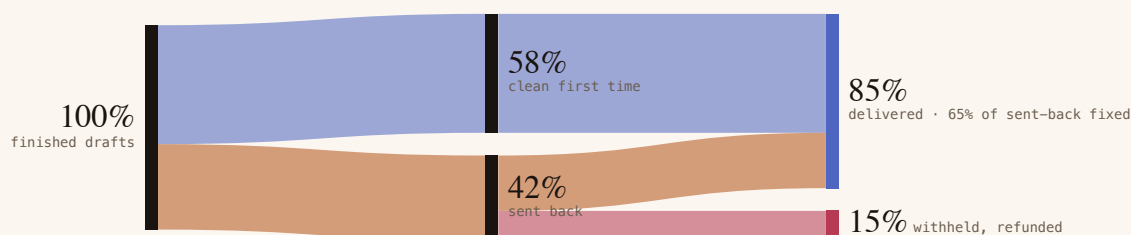

Fixed, or withheld

One rewrite allowed. Still wrong? It is never shown, and you are refunded.

08

Dates go on the ledger

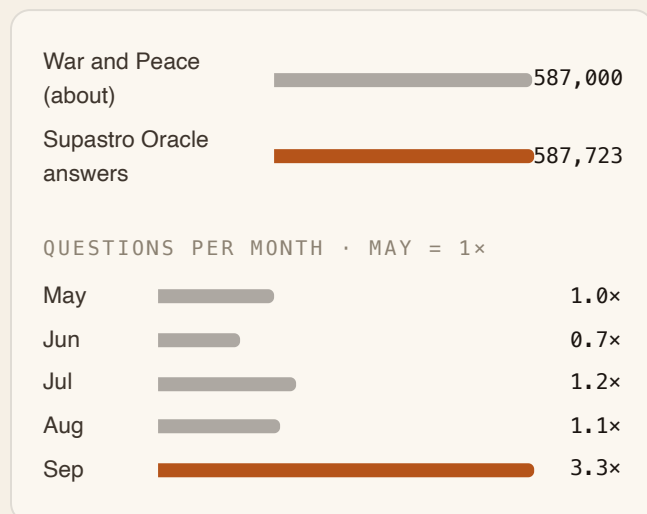

A dated prediction is written down before it can happen.

∴ THE MANIFEST

What every question taught us.

- 01 Answer the when.** 47% of askers ask when. A reading without a date window is unfinished.
- 02 Lead with the verdict.** 72% ask for a prediction and 2% for comfort. Verdict first, proof after.
- 03 Read love with more than one factor.** Love is the loudest house. The 7th, the D9 and the Upapada, never one guna score.
- 04 Check before speaking.** Every claim is compared with the chart. 42% of first drafts go back.
- 05 Refund, don't guess.** What cannot be fixed is never shown, and the credits come back.
- 06 Write it down first.** Every dated prediction goes on the ledger before its window opens.
- 07 Keep the asker unseen.** Nothing in this sheet can point to a person. Shares only.

HOW WE COUNTED

- Production data, read once and read-only, with test accounts removed. Only shares leave the database: no names, emails, birth details, question text or headcounts.
- Topics and houses are assigned by keyword rules. Shares count each person equally, so no single heavy user can tilt them. Top questions rank by how many different people ask.
- Feelings and wants come from the tone model inside the Oracle. Hours use India time for askers born in India.
- Charts are members' own profiles cast with Supastro's engine (sidereal, Lahiri, whole-sign). Sade Sati uses Saturn's current transit through Pisces.
- Checker figures are shares of finished drafts since the checker went live. Example questions are written by us; no real question is quoted.
